Technologies:	HTML, Tailwind css, js, React.js, Node.js
Developer Tools:	VS Code, Git, PyCharm, Sublime, Jupyter Notebook
Coursework:	Data Structures and Algorithms, DBMS, Operating System, Web Technology, OOP
Soft Skills:	Communication, Adaptability, Team Collaboration, Problem Solving

Projects

- **Rams Impex: Technology Used: React.js, Node.js, Tailwind CSS, Vite, Vercel**
Developed Ram Impex, a B2B web solution for a textile company, leveraging modern technologies for a seamless experience. The platform provides dynamic interfaces and optimized performance for business-to-business operations, specifically tailored to the textile industry.
- **ATS: Technology Used: Python, spacy, Gemini, Streamlit**
Developed an AI-powered Applicant Tracking System to automate resume screening and optimize job-candidate matching. Utilized Python for processing and Scikit-learn for machine learning models.
- **Cre8Tive:** A responsive portfolio website showcasing projects and services with a focus on modern UI/UX principles. Implemented seamless navigation, optimized performance, and ensured cross-device compatibility using **Tailwind CSS** and **React.js**, **Web3 forms**.
